

# ANTONY GORMLEY

*QUANTUM CLOUD, 1999 - 2009*

How can you convey the fact that the presence of somebody is greater or different from their appearance?

The DOMAINS allowed me to evoke the internal space of the body as a field, but are still bound by an invisible skin: I wanted to extend or ignore the skin.

The QUANTUM CLOUDS continue the matrix of the DOMAINS into outer space through the continuation of the branching connections, positioning the original body-field within a wider field.

The indeterminacy of the skin summons active involvement of the projection and finding force in the eye of the beholder.

It is an open question in the QUANTUM CLOUDS - whether the body is emerging from a chaotic energy field, or the field from the body.
